

# MULTIUTILITY 5.0

TORO LOCO

MU

## MU 5.0 - FL (Flail Cutter)

A 70 cm cutting disc equipped with four double-sided blades, designed to deliver a clean and uniform cut.

Thanks to this configuration, the attachment ensures consistent power and excellent efficiency when working on medium-woody vegetation.

## MU 5.0 - SH (Saw Head)

A 75 cm log-cutting disc capable of performing cuts up to 250 mm in thickness.

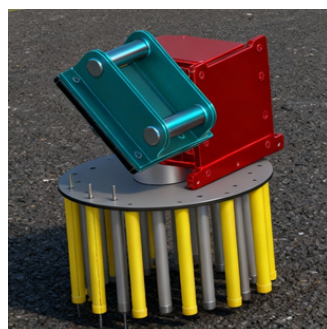

This attachment combines power and precision, designed for forestry applications or wood-clearing operations on light and medium excavators.

## MU 5.0 - PV (Paving Cleaner)

A 50 cm diameter steel brush designed for cleaning road edges, sidewalks, and paved surfaces.

Perfect for removing grass, moss, and embedded debris from joints in asphalt or stone paving.

## MU 5.0 - ERP (Harrow)

Rotary harrow with a 500 mm disc, designed to deliver optimal soil processing. Its rotary action breaks up and levels the ground, leaving it soft, aerated, and free from compaction—ideal for agricultural soil preparation and green-area maintenance.
